GeM recommends selection of Allowed Values for each of the Golden Parameters for defining your Bid. Please go through each Golden Parameter and select the Allowed Values.

- Your selected product's Golden Parameter value will also be added automatically as Allowed Value in addition to any other values chosen by you.
- You can also choose "Any Value" option for allowing any value as Allowed Value for the Bid. It is strongly recommended that this option is used carefully and only for a small subset of Golden Parameters to get specific offerings for your Bid.
- You can also review your final "Allowed Values" selections by scrolling down.
